

Protecting Your Home

With hurricane season upon us, it is important to be prepared in case a storm hits your area. Each year in Florida, hurricanes account for millions of dollars worth of damages and relief assistance. That is why the Department recommends consumers conduct a room-by-room home inventory. Doing this will make it easier to file an accurate claim in the event of a loss. To get started, just use the checklist below (you may need additional paper), making sure to provide the year of purchase, price, and brand name.

Item	Price	Date	Brand Name
